1. Document control

Item	Detail
Document	Change Request Log
Version	1.0
Prepared	15 October 2026
Author	Business Analyst / System Analyst (project owner)
Status	Reviewed, round 1 (25 October 2026)
Related documents	SRS, ROADMAP, TRACEABILITY-MATRIX

2. Purpose and scope

This document answers one question: what changed along the way, and how was it decided? It stops requirements from drifting without a trace.

Scope: the change control process, the request table, and the impact analysis template. Out of scope: future release plans (those are in ROADMAP).

3. Change control process

Step	Activity	Owner
1 Raise	The requester submits a request with a reason	Requester
2 Register	Assign an ID and record it in the table	BA
3 Assess impact	Analyse the effect on requirements, documents and schedule	BA, Dev
4 Approve	Decide to approve, reject or defer	PO
5 Implement	Make the change and test it	Dev

Step	Activity	Owner
6 Close	Update the affected documents and close the request	BA

4. Change request table
